Video: Fauci and WHO Know Damned Well Healthy People DO NOT Drive the Spread of a Virus

by Editor | Saturday, August 29 2020 @ 08:17 AM MDT | Views: 3,090 | Posted in NIH (National Institute of Health) / Dr. Fauci . Viruses / Pandemics / COVID-19

This is a segment from a briefing given on January 28, 2020 by the U.S. Department of Health and Human Services in which Dr. Fauci very clearly explains the "well-known FACT" that . . .

"even if there is some asymptomatic transmission, in all the history of respiratory born viruses OF ANY TYPE, asymptomatic transmission has never been the driver of outbreaks. The driver of outbreaks IS ALWAYS A SYMPTOMATIC PERSON!"

They all know that even if someone has a virus and they're not sick, it's because they are HEALTHY, WITH A HEALTHY IMMUNE SYSTEM that is easily dealing with the virus. They know damned well there's is no legitimate scientific basis to LOCKDOWN, HOUSE ARREST, FORCE MASK WEARING, AND TESTING ONTO HEALTHY PEOPLE! We have been mindlessly handing over BILLIONS OF DOLLARS to an industry that is LYING TO US and deliberately scaring everyone into doing what they want us to do, which is to willingly participate in our own destruction!

An enormous amount of money, resources and time is being wasted on people who ARE NOT SICK! They want to spend BILLIONS on vaccines that 99% of people do not need because their immune systems have no problem dealing with the virus.

In this briefing, they reference information coming out of China claiming asymptomatic people are spreading the virus but nobody has seen anything to substantiate such a claim that goes totally against the norm. And . . . like we can trust anything coming out of China . . . who clearly wants to keep us all in conditions of fear and economic collapse because, for one thing, THEY WERE LOSING THE TRADE WAR.

There is also a segment from a briefing given by the WHO in June of 2020 reiterating the exact same thing. THEY ALL KNOW THIS yet they are imposing criminal lock downs on EVERYONE!

Dr. Scott Atlas explains the FACT that all the studies, all the data shows that people who are NOT SICK do not spread infections and that this should not be controversial. It's only made controversial for purely political purposes.
